

AGENDA

1st Learning Activity 26 – 27 September 2022

Activity R1A4: Implementation of a Learning Activity with trainers on the guidelines (Learning Activity 1)
R1: Methodological framework for the conversion of training materials in asynchronous electronic learning

Location: DIMITRA Premises, Larisa, Greece

Monday, 26 th of September 2022	
09:30 - 10:30	Welcome and Introductions
10:30 - 12:00	e-EUPA: History and current situation <u>MMC</u> A short presentation of the history
12:00 – 12:15	Coffee break
12:15 – 14:00	Using the conversion tools: Creating the guidelines <u>UNINETTUNO</u> Employing the outcomes from the 1 st Online Workshop, the one-to-one online meetings between UNINETTUNO and MMC (n=2), and the feedback from the partners throughout the past few months, the partners will suggest a draft of guidelines which will eventually lead to the Methodological Framework. A template has been created, which we will use.
14:00 – 15:00	Lunch Break
15:00 – 17:30	Applying the draft guidelines Part 1: Transforming EUPA_NEXT methodological tools to asynchronous <u>UNINETTUNO</u> Based on the draft guidelines, we will conduct work in a group mode, to transform four methodological tools, each from each level (2,3,4,5)

Tuesday, 27th of September 2022

10:00 - 12:00	<p>Applying the draft guidelines Part 2: Transforming EUPA_NEXT methodological tools to asynchronous <u>UNINETTUNO</u> Based on the draft guidelines, we will conduct work in a group mode, to transform four methodological tools, each from each level (2,3,4,5)</p>
12:00 – 12:15	Coffee break
12:15 – 14:00	<p>Applying the draft guidelines Part 3: Creating new asynchronous methodological tools <u>UNINETTUNO</u> A brief presentation of asynchronous tools that have not been used in EUPA_NEXT. Based on the draft guidelines and on the brief presentation the partners will work in a group mode and propose 2-3 new tools to use. Full creation of methodological tool. Adding them in the draft guidelines.</p>
14:00 – 15:00	Lunch Break
15:00 – 16:00	<p>Project Result 3: Updated EUPA Materials for asynchronous electronic learning <u>VHS & MMC</u> A short presentation of the work that has been conducted by MMC, and introducing some guidelines for this Project Result by VHS and MMC</p>
16:00 – 17:30	Reflections and closure
